

LUMEDG 

Professional LED lighting solution

Lumedgo

Professional LED lighting solution

Who we are

Lumedgo Power Technology Co., Ltd. was established in 1998, before 2006 we were one of the most advanced provider of power supply and we worked with many important companies in Asia, including China Guodian, China Mobile, and Comba Telecom etc.

In 2006 we moved to LED lighting industry, adopting the technology and experience developed from our electronic and thermal control towards the R&D, manufacture, sales and service of LED lighting. We quickly became one of the leading and most professional LED lighting companies in China.

The Lumedgo philosophy

Technology and quality are always playing key roles in the Lumedgo philosophy, we are proud to hold the "Lumedgo LED Lighting Engineering Laboratory" which is authorized and supported by China National Development and Reform Commission. Alongside this, we hold the "Lumedgo LED Lighting Technology and Research Center" which is authorized and supported by China National Science and Technology Ministry.

Till 2014 we have 384 patents and more than 300 patents are pending, the patents include the LED chips packaging, power supply controlling and design of lamp housing. We worked with ISO-9001 quality control system since 2001, the products are UL, TUV, CE, SAA, C-tick and RoHS certificated.

To be professional is the key to success

We have more than 10 professors and doctors in our company R&D department, and more than 30% of our employees have bachelor's degree or higher. All of our staff receive the highest standard of training.

As experienced LED lighting specialists, we offer our customers more than just the delivery of reliable and top performance LED lighting products. Our focus and the services we provide have enabled us to build an excellent relationship with our market. Our team of lighting designers play an important role in this. The service consists of two different levels. The first level is our basic service that we offer in providing lighting technical advice for our customers. And based on the profile (lighting scheme) supplied, our specialists will present you a customized lighting plan by using the lighting calculation software.

Lighting the way

Whether it is an infrastructural project, port, motorway, tunnel, urban roads, residential area, underpass, parking area, city center or even a greenhouse, all of your requirements will be taken into account and translated in a perfect lighting performance solution, including Lumedgo LED models, column distance and positioning and lighting class and most efficient energy consumption.

We supply lighting products and service to many important projects around the world, Lumedgo LED solutions have been used on airports, sea ports, heavy industries, big commercial buildings, warehouses and logistic centers, streets, bridges, sport fields and arenas and many other not only industrial and commercial applications but also demanding and harsh environment.

Lumedgo will continue to expand our technology development and marketing reach, delivers more productivity and benefits to our customers as we continue to grow and makes our brands more distinct for our customers.

Lumedgo Optimum LED light

- Most powerful LED light released, ultra solution for professional applications
- 1,000W system power and 120,000 lumen, output 32 lux at 100 meters distance
- 360° flexible and reliable stainless steel mounting system
- Distinguished by the red sealing line of Lumedgo

Typical application:

Sea Port | Airport | Bridge | Architecture | Industrial Facility | Stadium | High Mast | Plaza | Street | Professional Lighting

ZHGL-1000P-L15

ZHGL-1000P-L20

Features & Characteristic:

- ◆ 1,000W system power & 120,000 lumen
- ◆ 5 year warranty
- ◆ 80% lumen maintenance over 50,000hours
- ◆ 80-600Vac input voltage without additional adapter
- ◆ 0-10Vdc & DALI dimming driver available
- ◆ Photocell & motion sensor system available
- ◆ Built-in surge protection & thermal protection
- ◆ Maintenance free
- ◆ Mercury free, No UV or IR
- ◆ Instant start & flicker free
- ◆ High uniformity & color rendering index

Data sheet

Model	LM1000.15	LM1000.20	LM1000.60	LM1000.120	LM1000.140
Beam Angle	15°	20°	60°	120°	140°x60°
Stable Flux (5700K after 1 hour)	100,000 lm	105,000 lm	110,000 lm	120,000 lm	102,000 lm
Dimension	671x405x374mm	671x405x322mm	671x405x204mm		
Power Consumption	LEDs	900W			
	Driver	100W			
	Total	1,000W			
Replace HID Lamp	2000 ~ 3000W				
Net Weight	29kg (64lbs) with stainless steel floodlight bracket				
Color Temperature	5700K (2700 ~ 6500K available on request)				
Color Rendering	≥Ra75 (≥Ra80, ≥Ra90 available on request)				
Working Life	≥50000Hrs				
Housing Material	Aluminum				
Coating	Zinc Rich Paint				
IP Class	IP 65 (Upgradeable to IP 67)				
Insulation Class	Class I				
Working Temperature	-40 ~ 60C / -40 ~ 140F				
Working Humidity	10% ~ 95%				
AC Input	80 ~ 360Vac, 400 ~ 600Vac				
DC Input	100 ~ 400Vdc, 500Vdc ~ 800Vdc				
THD	<10%				
Power Factor	≥0.98				
Warranty	LED Module	5 year			
	Driver	5 year			
	Housing	10 year

Standard Optimum LED general light

- Flexible and reliable, a LED light for all professional projects
- Only practical LED light for 1000W HID retrofit

Typical application:

Street | Bridge | Architecture | Warehouse | Stadium | Tunnel | Garden | Parking | Billboard | Plaza | Show Room | Factory | Shopping Mall | Petrol Station | Conference Centers | Cold Storage | Floodlighting

Features & Characteristic:

- *Patent multi- function design, suitable for all projects
- *5-5-10 year warranty
- *Top performance LED chips, 120 lm/w system efficacy
- *80% lumen maintenance over 50,000hours
- *0-10Vdc dimming driver available
- *Photocell and motion sensor system available
- *Built-in surge protection
- *Built-in thermal protection
- *Maintenance free
- *Mercury free, No UV or IR
- *Universal 80-347Vac input without additional adapter
- *Instant start and flicker free
- *High uniformity and color rendering
